TO: Minerals File

FROM: Lynn Kunzler, Senior Reclamation Biologist *LK*

SUBJECT: Site Inspection, Atlantic Richfield Co., Lime Peak Quarry,
S/049/044, Utah County, Utah

Date of Inspection: April 14, 2004
Time of Inspection: 11:30 am
Conditions: clear, windy
Participants: Dale Petersen, Flare Construction; Doug Jensen, Lynn Kunzler, DOGM

Purpose of Inspection: To document site conditions while in the area.

Observations:

The Lime Peak Quarry site was originally approved on February 4, 2004 with Anderson Engineering. The permit was transferred to Atlantic Richfield (ARCO) on April 8, 2004. ARCO has hired Flare Construction to operate this site. We met with Mr. Dale Petersen of Flare.

Operations have begun in an old quarry, as described in the Notice. The access road to the quarry has been improved to allow better access to the quarry. An excavator was operating in the quarry and a drill rig was in route. Operations were within the area identified in the Notice. There were no compliance issues observed. Several photos were taken to document site conditions.

Conclusions and Recommendations:

Continue to monitor this site when in the area.
